

Dear Mrs. Cote,

Hello. I just wanted to tell you I had a lot of fun at the Epic Patriot camp. It was more fun than I thought it would be!

I liked that the writing wasn't very hard. I also liked how nice everyone was. My Commander, Devon was very energetic. It was great when he helped me with my spelling.

I would have liked dressing up in the American Revolution clothes better if it had not been ninety-degree weather. That took hot to a whole new level.

I liked learning about Kings Mountain and General Ferguson. There was a lot about the American Revolution I didn't know and I would like to learn even more. It made me sad that so many people died. But it made a difference because we have freedom now. We aren't forced to live under a king.

My favorite hands-on activity was making the musket balls. I loved spending the night on Friday and my favorite thing was the water balloon fight. The food was good too!

My character, Robert Henry, was stabbed three times, shot six times, and ran over twice! It was fun acting like I was him. Although, I survived the water balloon fight without any of those things happening to me. I didn't get hit even once. I'm glad he lived to be the oldest Kings Mountain hero from the revolution.

I thought you were a great writing teacher. You are very funny! You made learning history cool.

Thank you for the book. I'm going to start reading it soon. Thank you for setting aside time to teach us about writing and all the history stuff. I had so much fun I would like to come help with the camp one year.

Have a good day,

Zach Matheny
